Hey there! My name's Talya. I'm 15 years old and I attend an international school in Istanbul. There are over 500 pupils from about 40 countries at my school. We've got a lot of different subjects and we have to work hard, but I enjoy it very much because we have excellent teachers and my classmates are very friendly. Our timetable is full of all the usual subjects, like Maths and History, but we also study a lot of different foreign languages. My favourite one is Italian. When I finish my studies, I want to travel around Italy because I love it!

 Hello, Talya! Your school sounds very interesting, but a little tiring, too! I come from Florence, a beautiful city in Italy, and I am a pupil in the 10th grade at a local school for talented young artists. It has a great atmosphere and our teachers are very nice. We also study the usual subjects, but we spend half of every day on special Art lessons. You know, Florence is famous for its artists! I hope to become one of them when I grow up!

Edmund, UK 18th October, 15:49
 My school is unusual, too. We make our timetables on our own and choose the lessons we want to study. It's amazing! Everyone works really hard because they love their lessons! I spend most of my school day in the computer lab having IT lessons. I also take part in a lot of interesting technology projects with my friends. When I leave school, I want to create new computer programmes.
