Hey guys, what's up? I'm Sam, Kate's brother. Let me fill you in about the Big Apple. Do you know that more than 8 million people live here? It's the largest and the most densely populated city in the US, and the population is growing all the time! More than 800 languages are spoken in New York City (NYC), so you can imagine how many different cultures co-exist here. Almost half of the residents speak a mother tongue that is not English in their homes! So of course, we have restaurants from all over the world. Sometimes I feel like I'm in a foreign country because everyone around me is speaking another language! You have to visit it to believe it and last year, over 47 million people did just that. With most tourists, it's love at first sight!

Now, let me tell you some little-known things about New York.
